

# NED 4-H AG-SCIENCE CAMP

Northeast District 4-H

July 24-26, 2017

## The Northeast District 4-H Advantage

Every county in the Northeast District has the opportunity to bring youth to the upcoming NED 4-H Ag. Science Camp. This camp is designed for youth that has an interest in agriculture from animal agriculture to wildlife & environmental studies. The youth that are eligible to attend must be rising 6th– rising 10th grade. If this is you...don't miss this opportunity!

### Three tracks of learning offered:

#### **Track 1: Animal Science & Large Animal Veterinary Science**

Those youth that are interested in livestock production will get a hands-on learning in various aspects of animal husbandry from genetics, reproduction & anatomy.

#### **Track 2: Horticulture, Crop Science & Biotechnology**

This track will have a hands-on approach to learning about an in-depth study of horticulture, soils, and crop production with field trips to local farms & businesses to learn the total production side of this industry.

#### **Track 3: Wildlife, Forestry & Environmental Sciences**

Youth that are interested in learning about wildlife habitats, wildlife identification, forestry, fisheries & conservation strategies...is invited to participate in this track! Don't miss your opportunity to get hands-on with the WILD...furs, tracks, bones & much more!

### **CHALLENGE 2050**

*“Agriculture in the 21st century faces multiple challenges: it has to produce more food and fiber to feed a growing population with a smaller rural labor force.” -Global Agriculture*

### **Cost: \$100**

- Covers the cost of lodging, meals, entertainment & t-shirt.
- Lodging will be in the dorms at Wesleyan College– Rocky Mount, NC
- Sign up on a first-come, first-serve basis!
